

Journée du LAMSADE

Institut Henri Poincaré (11 rue Pierre et Marie Curie, Paris 5e), Mercredi 13 mai 2026

09h00 Accueil et café

09h30 Mot d'ouverture

09h35 Ma thèse en 3 minutes (1re partie)

- Yiren Lu "Algorithmic meta-theorems"
- Silas Workman "Analyzing Process Dynamics Across Organizational Boundaries"
- Thomas Randriamahazaka "Argumentation-induced polarization: models and simulations"
- Mehyaar Mlaweh "Monte Carlo Tree Search for Molecule Design"
- Salim Klibi "Territorial evaluation and multicriteria modeling of the decarbonized hydrogen sector: technical-economic analysis, controversies and inter-sector comparison in Vendée"

09h50 Pause café

10h05 Edwige Cyffers "Privacy, Performativity and Decentralization for Machine Learning"

10h35 Mon post-doctorat en 5 minutes

- Vicky Kouni "The crossroads of adversarial robustness and model-based methods"
- David Robin "Adversarial Training cannot be reduced to Regularization"

10h50 Pause café

11h05 Ma thèse en 3 minutes (2e partie)

- Organtini Lorenzo "Sequential optimization under uncertainty for the negotiation strategies on the wholesale markets"
- Emmarius Delar "Monte Carlo Tree Search for Graph Generation"
- Hangyue Zhao "Frugal Machine Learning for Structured Data under Real-World Constraints"
- Kirti Singh "Possibilities in Classification Aggregation"
- Gerard Motak "Can LLMs Manage Business Processes? An Empirical Evaluation of Reasoning, Planning, and Tool-Augmented Execution of LLMs"

11h35 **Rump session (TBA)**

12h00 Déjeuner

14h00 Enka Blanchard "From Muscovite fraud to Parisian percolations"

14h30 Gabriel Alcaras "LLMs and automation in workplaces"

15h00 Débat sur l'usage des LLMs en recherche — animé par Jérôme Lang, Joyce El Haddad et Gabriel Alcaras

16h00 Pause café

16h15 Événement PSL/LAMSADE (TBA)

16h45 Clôture de la journée

18h30 Dîner au MANSOURIA / LE MANSOU

**60 RUE DE CHARONNE
75011 PARIS**

LAMSADE's Day

Institut Henri Poincaré (11 rue Pierre et Marie Curie, Paris 5e), Wed. 13 May 2026

- 09h00 Welcome coffee
- 09h30 Opening statement
- 09h35 My PhD in 3 minutes (1st part)
- Yiren Lu “Algorithmic meta-theorems”
 - Silas Workman “Analyzing Process Dynamics Across Organizational Boundaries”
 - Thomas Randriamahazaka “Argumentation-induced polarization: models and simulations”
 - Mehyaar Mlaweh “Monte Carlo Tree Search for Molecule Design”
 - Salim Klibi “Territorial evaluation and multicriteria modeling of the decarbonized hydrogen sector: technical-economic analysis, controversies and inter-sector comparison in Vendée”
- 09h50 Coffee break
- 10h05 Edwige Cyffers “Privacy, Performativity and Decentralization for Machine Learning”
- 10h35 My post-doc in 5 minutes
- Vicky Kouni “The crossroads of adversarial robustness and model-based methods”
 - David Robin “Adversarial Training cannot be reduced to Regularization”
- 10h50 Coffee break
- 11h05 My PhD in 3 minutes (2nd part)
- Organtini Lorenzo “Sequential optimization under uncertainty for the negotiation strategies on the wholesale markets”
 - Emmarius Delar “Monte Carlo Tree Search for Graph Generation”
 - Hangyue Zhao “Frugal Machine Learning for Structured Data under Real-World Constraints”
 - Kirti Singh “Possibilities in Classification Aggregation”
 - Gerard Motak “Can LLMs Manage Business Processes? An Empirical Evaluation of Reasoning, Planning, and Tool-Augmented Execution of LLMs”
- 11h35 **Rump session (TBA)**
- 12h00 Lunch
- 14h00 Enka Blanchard “From Muscovite fraud to Parisian percolations”
- 14h30 Gabriel Alcaras “LLMs and automation in workplaces”
- 15h00 Debate on the use of LLMs in research — moderated by Jérôme Lang, Joyce El Haddad and Gabriel Alcaras
- 16h00 Coffee break
- 16h15 PSL/LAMSADE event (TBA)
- 16h45 Closing session
- 18h30 Dinner at MANSOURIA / LE MANSOU

**60 RUE DE CHARONNE
75011 PARIS**
