

Four members of the team were involved in the podcast Ex-Machina created by Dauphine Numérique. This podcast develops a scientific discussion between researchers from Dauphine Université about the impact of AI and algorithm on our lives, the society, and the future. After a first season with more than 10 000 listeners, the awarded podcast has started a second season. All podcasts are available at: <https://dauphine.psl.eu/podcasts/ex-machina>

We participated to the following programs:

- Éthique des algorithmes : comment garder la main sur les IA ?

janvier 2023, Virginie Do (PhD student)

- L'IA, quelle Histoire !

novembre 2022, Jamal Atif

- Art & IA : Robot, dessine-moi un mouton

octobre 2022, Florian Yger

- Les algorithmes au pouvoir - Numérique, information et démocratie

décembre 2021, Alexandre Allauzen et Jérôme Lang (Decision Aiding team)

- IA : qui sont les humains derrière la machine ?

octobre 2021, Yann Chevalyere
